It’s every expectant parent’s worst nightmare, getting the news that the baby they are carrying may not live. For the Ellis family of Salisbury, the news was devastating.

At 36 weeks into her first pregnancy, Aimee and husband Gabe Ellis learned that their unborn baby’s brain was not growing at the rate it should.

“We didn’t know anything was wrong,” Aimee said. “I’d had a healthy pregnancy. During my routine ultrasound, they discovered the baby’s head circumference was too small. We went to the Children’s National Medical Center in Washington, D.C. for a fetal MRI. They told us it was likely he wouldn’t survive the delivery or would die soon after.

“We had a week to prepare — for his death and his birth at the same time. It was awful.”

Hearing Charlie’s prognosis was a life changing experience for the couple. “When you find out you’re pregnant with your first child, you have certain expectations. When you find out the reality is going to be much different from those expectations, it’s a blow,” Aimee recalled.

But little Charlie Ellis survived his birth, and, in something of a miracle, just celebrated his first birthday.

Charlie was born with ALG11-CDG or congenital disorder of glycosylation, a rare inherited metabolic disorder. He is the ninth person in the world diagnosed with this genetic condition.

Mom takes a selfie in her son Charlie’s sunglasses, and Charlie with his parents, Aimee and Gabe. The baby turned 1-year-old in January.

Spring is a time of renewal and reorganization

Spring is in the air! The signs are everywhere. I have seen the snow geese by the thousands in the fields on their migration back north, and large flocks of robins in the yards of my neighbors. Rabbits are reemerging, and the tips of bulb plants are surfacing. Spring is a time of renewal, when we clear out our gardens for the new plants, do our spring cleaning, and reorganize.

At Coastal Hospice, we are in that mode of reorganization and renewal. We are reorganizing our priorities for future work and projects. We are developing new strategies for ensuring the best care for our patients. Our continued growth means that we are continuing to look for new qualified staff members to join our team. At Coastal Hospice at the Lake, we will be refreshing our appearance, with new paint and other cosmetic updates. Spring cleaning will also take place in our main office.

The biggest growth and renewal is with our residential project, the Macky and Pam Stansell House of Coastal Hospice at the Ocean. Interior demolition began on December 26th, and, as I write, the exterior demolition is underway. Soon the renovations and new construction will start and give rise to the beautiful and serene building that it will be. We look forward to seeing our new hospice residence grow over the summer. We look forward to being a vibrant part of the community at The Point in Ocean Pines as we continue to serve people throughout the four Lower Shore counties.

SPRING 2018

A NONPROFIT SERVING DORCHESTER, SOMERSET, WICOMICO & WORCESTER COUNTIES

Salisbury

Charlie is 1 year old — and in hospice care

Continued on Page 3
Q: Does Coastal Hospice also care for pediatric patients?
A: While many think hospice care is reserved for the elderly, Coastal Hospice regularly cares for pediatric patients and their families. And while the work is rewarding, it can also be a tremendously sad and difficult time for everyone involved.

Our pediatric staff is dedicated to providing the support and special care that young patients need. Everyone who does this work is drawn to it. It’s a true calling, a passion, and a dedication.

Even when kids are ill, they are still kids, and they want to play and have fun. So making sure they are comfortable and not in pain is a large part of the work we do. Coastal Hospice has cared for children for days, weeks, and even years, providing palliative care and emotional support to everyone involved.

But there’s much more to it than providing physical comfort. Most of the children in our care are in their own homes, supported by their parents and extended families. There may be siblings around who at a young age are having to deal with the imminent death of a brother or sister. They are finding that their lives and activities are often interrupted by the constant care and attention the ill child demands.

Our nurses, social workers, and counselors focus on everyone in the family who is affected by the child’s illness. Our staff treats every family member in a personal way, providing emotional support, structured routines, family activities that can include the sick child, and ideas on ways to cope.

We all have our time, and for some people it may be just six weeks or one year versus 90 years. But every person should have the same access to a full life, no matter their age. Pediatric palliative care and hospice care really help advocate for these kids and these families to live their lives as they want.

The death of a child is a loss that none of us can imagine. At the same time, we get to witness the strong and unbreakable love and the commitment between a parent and a child, between brothers and sisters, among a community that reaches out to support a family going through one of the most heart-breaking times they can ever experience.

It is an honor to be invited into that world.

Thank you for being our Angels!
Our annual fundraising drive for charity care has a record breaking year

Our community is filled with angels. The outpouring of generosity for our annual Angel fundraising drive proves it. We had a record-breaking year!

Thank you to all of the angels — 1,163 of you — who this year contributed more than $118,000 to help fund the charity care we provide.

Last year, Coastal Hospice cared for nearly 1,200 patients and families in the four counties on the Lower Shore and provided more than $600,000 in charity care to patients who have no resources for care or have needs beyond their insurance coverage.

The average gift this year was $101, which will have a significant impact on the care Coastal Hospice provides. For example, a $100 donation pays for one month of oxygen for a hospice patient at home. A $70 donation pays for one month of medical equipment for a patient at home.

Angels like you are the bright lights in the midst of our lives!

Volunteering can be a way to give back and have fun!

In December, volunteers dress for our annual Santa Run, cheering our patients.

Many of you know firsthand how volunteers help us care for our patients and support our families. We have volunteers that serve in many different areas, and we have a place for you.

Our criteria is simple: You need only have a compassionate heart for our patients and families. Tell us your interests and how and when you’d like to help, and we’ll match you with one of our volunteer opportunities. We need volunteers for patient and family care, for staff and office support, for our Thrift Shop in Berlin, for grief support, and also for our We Honor Veterans Program.

Please contact Volunteer Services at 410-742-8732 or volservices@coastalhospice.org for more information.
Welcome to our new 2018 Board of Directors

Coastal Hospice is proud to announce our new Board of Directors for 2018, and we thank them for their service.

For a second year, Michael P. Dunn continues as chair, and Stephen R. Farrow as vice chair. Lorie L. Phillips continues as treasurer, and Alane K. Capen as president. Michael E. Schrader is the member-at-large, and Byron D. Braniff is secretary.

New members of the board are David “Buddy” A. Dykes, Wiltssy Payero, and Margaret M. Whitten.

Dykes is a graduate of James M. Bennett High School and a board member of the Ocean City Development Corp. A resident of Dagsboro, he is a sales representative with Doodle Designs and Berkshire Hathaway Real Estate.

Payero, a resident of Salisbury, is a graduate of Lebanon High School and Oakland City University. She is the Learning & Development Manager at Perdue Farms and also volunteers for St. Jude’s Children’s Hospital and Habitat for Humanity.

Whitten is a graduate of North Dorchester High School and Salisbury University. A resident of East New Market, she works in customer service for Whitten Insurance in Cambridge and volunteers with Habitat for Humanity and the Dorchester Chamber of Commerce.

Baby Charlie  Continued from Page 1

Charlie was only two weeks old when Coastal Hospice came in to care for the infant and the family, with registered nurse Angela Cherrix taking the lead. It was an emotional time for everyone who loved Charlie.

“In the beginning, there was so much unknown — for everybody, for the doctors, for Angie, for us,” Aimee said. “When you get this news, you’re like: What am I supposed to do? How am I supposed to take care of a child with special needs who has a poor prognosis?”

“Nurse Angie has been amazing in helping me establish a routine and calming me down when I start freaking out about things. She is always there for us and has been able to keep me grounded. She helps me with Charlie’s medications and making sure we have all our supplies. Beyond that, she’s been a huge emotional support for us, too.”

The nurse reports caring for Charlie and his family has been both a challenge and a personal blessing.

“The Ellis family — Aimee, Gabe, and Charlie as well as the aunts, uncles, and grandparents — has taught me so much about life, hope, and grace,” Angie said. “We have been able to manage Charlie’s symptoms and keep him as comfortable as possible while maximizing his quality of life.”

Gabe Ellis works two jobs — as a Physicians Assistant at Peninsula Orthopedics and in the emergency room at Nanticoke Hospital — so Aimee can be a full-time caregiver for their son.

No one knows how long Charlie will live, so the goal is to keep him comfortable.

In November, Charlie had surgery to insert a feeding tube and did phenomenally well. But one Sunday morning, his breathing became labored, and his frightened parents thought he was passing. In a couple of hours, his breathing became normal.

It was then that Aimee and Gabe decided to alter their way of thinking about Charlie’s illness.

“We decided we were going to live with him rather than sitting home waiting for him to pass,” Aimee said.

“Over the past year, we have gone from acutely anticipating his death to figuring out how to take each day, week, and month as it comes,” nurse Angie said.

Today, Charlie is surpassing everyone’s expectations.

“He smiles; he laughs. He has this little personality; it’s just amazing,” Aimee said. “In comparison to other kids, he’s made little progress. But for him, he’s defining his own path in life.”

In order for his parents to fully live life with Charlie, Coastal Hospice arranged for travel contracts so he and his family can take vacations and attend family weddings. With a travel contract, another hospice in the area of travel takes over temporarily for Coastal Hospice, a standard procedure in hospice care.

“When you leave the comfort of your home and your support system, it’s very nerve racking. Everything Coastal Hospice has done has helped normalize our lives,” Aimee said.

She believes this experience has brought the couple closer.

“After being together for 12 years, we’re stronger and closer than ever. In a way, we have Charlie to thank for that. My husband is amazing; he’s such a good dad.”

The couple is grateful to have the support and care of hospice.

“We know there are a lot of people behind the scenes working to help us,” Aimee said. “Coastal Hospice has been a Godsend to us. I honestly don’t know where we’d be without all of you.”
Reserve your spots now for our annual Spring fundraisers

Coastal Hospice has received approval from the Maryland Health Care Commission to proceed with construction of the Macky & Pam Stansell House of Coastal Hospice at the Ocean in Ocean Pines. We expect to complete construction by the end of 2018.

The Stansell House will give hospice patients the dignity of hospice care with the comforts of home. It is designed for those in hospice who have no one to care for them in their own homes, and will be a safe and secure place where patients and their families receive the medical, emotional, and spiritual support they need.

Originally designed as a clubhouse at The Point neighborhood in Ocean Pines on an 11-acre waterfront property on the Isle of Wight Bay, the building sat unfinished and vacant for more than 10 years until Coastal Hospice purchased it at the end of 2016 with the intent of transforming it into a state-of-the-art hospice residence. While the exterior of the building will retain its general appearance, the north side of the building will be demolished and reconstructed to meet the unique needs of hospice patients. The interior will be furnished to be as home-like as possible, with rocking chairs on the porch, original artwork on the walls, and private spaces for families to gather.

The new hospice residence and outreach center will include 12 private patient rooms, most with water views, plus family rooms and a community center offering bereavement support and other programs.
